

Greenstone Labradors: Limited Health Guarantee

1. Initial Health Warranty

We guarantee that at the time of delivery, the puppy is in good health and has received age-appropriate vaccinations and deworming.

- **The 72-Hour Window:** The Buyer has **72 hours** from the time of pickup to have the puppy examined by a licensed veterinarian.
- **Return Policy:** If the veterinarian finds the puppy to be ill or unfit for sale within this window, the puppy may be returned immediately for a **full** refund of the purchase price, provided a written vet report is supplied to the Seller.

2. Genetic Health Guarantee

We take extensive precautions to ensure our puppies are free from inheritable problems. We specifically guarantee that our puppies are "**Not Affected**" by the following genetic conditions:

- **Exercise Induced Collapse (EIC)**
- **Progressive Retinal Atrophy (PRA)**

Note: A dog may be a "carrier" of a gene but will never be clinically "affected" by the disease. This guarantee covers clinical illness resulting from these two specific genetic markers.

3. Orthopedic Stewardship (Buyer Responsibility)

While genetics play a role in skeletal health, environmental factors are critical in large-breed dogs. **Greenstone Labradors does not offer a clinical guarantee on Hips or Elbows**, as these are heavily influenced by owner management. To ensure the best possible orthopedic outcome, the Buyer agrees to:

- **Maintain a Lean Weight:** Obesity is a leading cause of joint stress. Keep your puppy at a healthy, trim weight throughout their life.
- **Impact Control:** Avoid repetitive pounding or high-impact jumping (off furniture, out of trucks, or off high decks) until skeletal maturity (18 months).
- **Supportive Surface:** Provide an orthopedic surface for resting, such as a [Kuranda Bed](#), to protect developing joints.

4. Nutrition & Wellness

To support the puppy's immune system and growth, we recommend maintaining the nutritional standards the puppy was started on:

- **Diet:** A high-quality formula such as [Purina Pro Plan Sport](#).
- **Supplements:** We recommend [FortiFlora](#) during the first 30 days to assist with the stress of transitioning to a new home.

5. Limitations

This guarantee is non-transferable and applies only to the original Buyer. It does not cover common puppy ailments such as internal/external parasites, or any condition caused by negligence, injury, or environmental exposure.
